

S-100WG Letter 1/2024

February 14, 2024

Dual Fuel Concept for S-100 ECDIS Review

Dear S-100 Working Group Members,

As part of the actions from the S-100WG8 meeting (Action 8/26) the S-100WG, along with NIPWG and TWCWG have been requested to provide inputs to update [Dual Fuel Concept for S-100 ECDIS](#) that was approved at the 3rd Session of the Assembly. It should be noted that this document has not had any edits since it was first drafted and finalized in 2022 and as the S-100 concept has matured it will require some updates.

Please provide your inputs in the attached comment sheet and return it to Yong.Baek@iho.int and Julia.Powell@noaa.gov by March 15th 2024 so that we may incorporate any new inputs into the DF-Concept for submission to HSSC.

Yours sincerely,

Julia Powell
(IHO – S-100WG Chair)
